

SAVE THE DATE

Vineyard Soil Health Symposium

March 9, 2017

9am-12 Noon

Sonoma County Farm Bureau Office
3589 Westwind Blvd., Santa Rosa, CA 95403

Presentations from grower panels on practices that can help improve vineyard soil health and sequester carbon: cover crops, compost, alternative tillage practices, and planting hedgerows.

Our website < <http://sonomarc.org/get-involved/> > will be updated with more symposium details and a registration link will be available by late January 2018.
