TEAM Conservation Education Program

Teaching Environmental and Agricultural Memories for elementary youth throughout Sonoma County

You're invited to participate in this FREE field trip program - Limited space and transportation funds are available!

Program Overview:

- Hosted by local, professional agricultural and natural resource conservation community members
- Designed by Stephanie Lennox, environmental educator and naturalist
- Includes two classroom visits and one field trip experience

Team Activities:

- Inspire a connection to and appreciation for agriculture and land conservation
- Support CA State Science and Environmental Education Standards
- Include a TEAM Field Notebook designed to reinforce program themes

TEAM

4th Grade Field Trip Crane Melon Barn

Students will participate in:

- ✓ 45 minute pre-site classroom visit
- ✓ 3 ½ hour field trip to the Crane Melon Barn
- ✓ 45 minute post-site classroom visit

While onsite, students will rotate through three workstations where hands on activities will allow students to explore the agriculture products produced at the historic Crane Melon Farm and the surrounding industry.

Station 1: SOIL is Important to Life!

Station 2: Get a *Taste* for Crane Family History

Station 3: A Grape Time!

All five senses are utilized throughout each learning station – tasting of these iconic Sonoma County melons is encouraged!
