## TEAM Conservation Education Program

*Teaching Environmental and Agricultural Memories for elementary youth throughout Sonoma County*

You're invited to participate in this FREE field trip program - Limited space and transportation funds are available!

### Program Overview:

- Hosted by local, professional agricultural and natural resource conservation community members
- Designed by Stephanie Lennox, enviro educator & naturalist
- Includes two classroom visits (pre and post field trip) and one field trip experience to farm site

### Team Activities:

- Inspire a connection to and appreciation for agriculture and land conservation in Sonoma County and beyond
- Support CA State Science and Environmental Education Standards
- Include a TEAM Field Notebook designed to reinforce program themes

### Funders & Partners:

TEAM

# 5<sup>th</sup> Grade Field Trip Open Field Farm

Students will participate in:

- ✓ 45 minute pre-site classroom visit
- ✓ 3 ½ hour field trip to Open Field Farm
- ✓ 45 minute post-site classroom visit

While onsite, students will rotate through three workstations where hands on activities will allow students to explore the agriculture products produced on the farm and learn about land stewardship and community connections:

**Station 1:** BEE- coming Food

**Station 2:** Let's Check Out Open Field Farm!

**Station 3:** Play CSA

All five senses are utilized throughout each learning station as students explore this stunning farm scape!
